represents how I perceive computational physics should be taught. This set of lecture notes serves the scope of presenting to you and train you in an algorithmic approach and graduate students had a very rudimentary knowledge of computational techniques and methods. Time-Harmonic Electromagnetic Fields in Chiral Media (Lecture Notes in Physics) Book Title:Time-Harmonic Electromagnetic Fields in Chiral Media (Lecture Notes in Physics) This book deals with the fundamental aspects of electromagnetic field theory in chiral media in the frequency domain. An Introductory Guide to Computational Methods for the Solution of Physics Problems: With Emphasis on Spectral Methods This monograph presents fundamental aspects of modern spectral and other computational methods, which are not generallyPrice: \$
